We offer an assortment of cleaning services that include window cleaning, gutter cleaning and pressure washing. Window Cleaning If high-quality window cleaning services is what you are after, there is no other company that does it better than us here at Extreme Clean Surrey. If you need any proof of our validity, you'll be happy to know of our affiliation with respected trade organisations like Surrey Trading Standards, Which? Trusted Traders, and TrustMark. We also have more than 500 reviews on Checkatrade and we're verified by Trusted Trader. Most of all, we are a fully insured company with a £5 million employers and public liability insurance. Gutter Cleaning We also deliver complete home cleaning services that include your rain gutter. To do this efficiently, we make use of the groundbreaking Sky Vac Gutter-Vac system that has a CCTV that lets our experts have a clear view of what's happening. The Sky Vac has powerful turbines that create incredible suction power to help clear your gutter of any dirt that may clog up the downspout. Pressure Washing Is your patio looking old? Is the concrete on your driveway looking dirty? Does the cladding on your building need more than just a

scrub? Don't worry as we have just the cleaning technique to make those look new again: power washing. Power washing is a great way to provide exterior surfaces new life and have it looking restored and fresh again. As time passes by, dirt and algae can gather on slabs, ruining its appearance and making them greasy and unsafe. To help make sure these surfaces are safe and looking grand at all times, we suggest regular pressure washing to remove all these blemishes away.
